Value of $10,000 investment‡ – Series ETF

What does the Fund invest in?

The Fund seeks to obtain current income while preserving capital and mitigating the effects of interest rate fluctuations through investments in and exposure to bonds including government bonds, investment grade bonds and high yield bonds, as well as other income-producing securities such as asset-backed securities and senior floating rate loans.

Key Reasons to Invest

- Focus on long-term capital growth and downside protection through a global, short-duration investment grade portfolio.
- Diversification beyond traditional fixed-income strategies.
- Enhanced yield potential from non-investment grade exposure (max 25%) and wide latitude in higher-yielding credit selection.

‡ On September 4, 2024, the sub-advisor of the Fund changed. This change may have affected the Fund's performance.
[1] Cash and Other Net Assets are excluded. [2] Credit quality of debt instruments of the Fund through direct holdings and/or underlying funds. Credit ratings obtained from DBRS, Standard & Poor's or Moody's. DBRS rating or equivalent is presented. [3] Excludes Cash and Other Net Assets and applicable investment funds not managed by IA Clarington Investments Inc.

†Distributions ($/share) and Distributions ($/unit) are paid using a calculation rounded up to 5 decimal places. Distributions shown are rounded to 3 decimal places.

Commissions, trailing commissions, management fees, brokerage fees and expenses all may be associated with mutual fund investments, including investments in exchange-traded series of mutual funds. Please read the prospectus before investing. Rates of return include changes in share or unit value and reinvestment of all dividends or distributions but do not account for sales, redemption, distribution, optional charges, or income taxes payable by any securityholder that would have reduced returns. Returns for more than one year are historical annual compounded total returns while returns for one year or less are cumulative figures and are not annualized. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. The compound growth chart only illustrates the effects of a compound growth rate and is not intended to reflect future Fund values or returns. Performance data of different fund series may differ due to different fee structures and other reasons. When a material merger occurred, performance is measured from the merger date (Performance Start Date or PSD). Distribution payments are not guaranteed and may fluctuate. Distributions paid should not be confused with a Fund's performance, rate of return or yield. If distributions paid exceed Fund performance, your original investment will shrink. Distributions paid resulting from capital gains realized by a Fund and income and dividends earned by a Fund are taxable to you in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, you will have to pay capital gains tax on the amount below zero. A Fund's "yield" refers to income generated by its portfolio holdings, not return or the income paid out by the Fund. "Portfolio Yield" refers to the Fund's overall yield, not of each Fund series. Refer to the prospectus for details on each Fund series. U.S. dollar securities may not be held in Registered Plans, except TFSAs. The iA Clarington Funds are managed by IA Clarington Investments Inc. iA Clarington and the iA Clarington logo, iA Wealth and the iA Wealth logo, and iA Global Asset Management and the iA Global Asset Management logo are trademarks of Industrial Alliance Insurance and Financial Services Inc. and are used under license. (iAGAM) is a subsidiary of Industrial Alliance Investment Management Inc. (iAIM).

Interest rate payments for the following securities in the fund are reset periodically: senior loan (term loans), CLO (Collateralized Loan Obligations), MBS (Mortgage-Backed Security), and ABS (Asset-Backed Security). As a result, in calculating the modified duration of the Fund, these securities are individually assigned a duration based on its interest rate reset frequency. In other words, a security is assigned a duration of 0.08 years if its interest payments are reset monthly, a duration of 0.25 years if reset quarterly, 0.5 if reset semi-annually, and 1 if reset annually.
