**What does the Fund invest in?**

The Fund seeks to obtain current income while preserving capital and mitigating the effects of interest rate fluctuations through investments in and exposure to bonds including government bonds, investment grade bonds and high yield bonds, as well as other income-producing securities such as asset-backed securities and senior floating rate loans.

**Key Reasons to Invest**

- Focus on long-term capital growth and downside protection through a global, short-duration investment grade portfolio.
- Diversification beyond traditional fixed-income strategies.
- Enhanced yield potential from non-investment grade exposure (max 25%) and wide latitude in higher-yielding credit selection.

Industrial Alliance Insurance and Financial Services Inc. is the sole issuer of the individual variable annuity contract providing for investment in IA Clarington GIFs. A description of the key features of the individual variable annuity contract is contained in the IA Clarington GIFs Information Folder. SUBJECT TO ANY APPLICABLE DEATH AND MATURITY GUARANTEE, ANY PART OF THE PREMIUM OR OTHER AMOUNT THAT IS ALLOCATED TO A SEGREGATED FUND IS INVESTED AT THE RISK OF THE OWNER AND MAY INCREASE OR DECREASE IN VALUE ACCORDING TO FLUCTUATIONS IN THE MARKET VALUE OF THE ASSETS OF THE SEGREGATED FUND. Commissions, service fees, management fees, insurance fees and expenses all may be associated with this investment. Please read the Information Folder before investing. Returns for time periods of more than one year are historical annual compounded total returns while returns for time periods of one year or less are cumulative figures and are not annualized. The rates of return are the historical returns of the underlying mutual fund including changes in security value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any policyholder that would have reduced returns, performance, rate of return, or yield. Segregated fund fees are higher than mutual fund fees because they include a management fee and an insurance fee component. Past performance is not guaranteed and may not be repeated. Trademarks used herein are owned by Industrial Alliance Insurance and Financial Services Inc.

Interest rate payments for the following securities in the fund are reset periodically: senior loan (term loans), CLO (Collateralized Loan Obligations), MBS (Mortgage-Backed Security), and ABS (Asset-Backed Security). As a result, in calculating the modified duration of the Fund, these securities are individually assigned a duration based on its interest rate reset frequency. In other words, a security is assigned a duration of 0.08 years if its interest payments are reset monthly, a duration of 0.25 years if reset quarterly, 0.5 if reset semi-annually, and 1 if reset annually.
